

MAHESH BABU SANKA

FULL-STACK WEB DEVELOPER & AI ENGINEER

Phone: +918897194356 | Email: LUCKY90595812@gmail.com
GitHub: github.com/Mahesh88971 | LinkedIn: <https://linkedin.com/in/mahesh-babu-sanka>

PROFESSIONAL SUMMARY

Innovative and goal-driven B.Tech Computer Science student specializing in full-stack web development and Artificial Intelligence integration. Hands-on experience building scalable web applications with Modern React ecosystems, RESTful APIs, and machine learning workflows. Hackathon contestant with demonstrated ability to deliver end-to-end AI applications, optimize database queries, and construct intuitive user interfaces.

TECHNICAL SKILLS

Frontend Dev:	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive UI design
Backend Dev:	Node.js, Express.js, RESTful APIs, Python (FastAPI / Flask)
AI & Data Science:	Python, NumPy, Pandas, OpenAI API / LLM Integration, Prompt Engineering
Databases & Tools:	MongoDB, MySQL, Git, GitHub, Postman

HACKATHONS & KEY PROJECTS

AOTMS Hackathon Project — AI-Powered Web Solution

Hackathon Participant

- Designed and deployed an end-to-end web application combining a responsive frontend with an intelligent backend AI service under strict hackathon deadlines.
- Integrated machine learning models / API pipelines to automate real-time data processing and decision-making for end-users.
- Collaborated effectively in a fast-paced team environment to engineer dynamic user flows, RESTful API endpoints, and optimized database queries.

Full-Stack Web Application with Integrated AI Assistant

Personal Developer Project

- Engineered a full-stack web portal using React.js and Node.js/Express, featuring secure user authentication and state management.
- Implemented custom AI agent endpoints using Python/FastAPI to deliver intelligent context-aware responses and insights.
- Structured MongoDB database schemas to store user sessions, query logs, and analytics with zero downtime.

Interactive UI & Custom Web Components Library

Open Source / GitHub

- Crafted modular, reusable UI components with Tailwind CSS and JavaScript, prioritizing web accessibility and fast render times.
- Published code repositories on GitHub (<https://github.com/Mahesh88971>) following standard software documentation and Git workflows.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

(Expected Graduation: 2028)

- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Web Technologies, Database Management Systems (DBMS), Operating Systems.

ACHIEVEMENTS & LEADERSHIP

- Hackathon Competitor:** Successfully participated in the competitive AOTMS Hackathon, building practical tech solutions under competitive conditions.
- Technical & Campus Involvement:** Active participant in college technical events, design initiatives, and peer coding workshops.

- **Continuous Learning:** Solves algorithmic challenges on LeetCode/HackerRank and stays active on GitHub open-source projects.
- **Cultathon Competitor:** Implemented cultural discovery modules showcasing stories, literature, and visual expression rather than standard grammar lessons.
Designed and built responsive UI components to deliver an intuitive user experience centered around inclusive digital communication.
Leveraged modern web technologies to translate the visual nuances and rich identity of ISL into a interactive digital format.
